

Himalayan Blooms- A collection of Rakhis

Himalayan Blooms work with women in the remote village of Khetikhan, Uttarakhand, supporting them to gain social, financial and personal independence. The women make hand knitted and crocheted apparels and accessories, and all we do is connect you to these artisans. They are the masters of the traditional art of knitting and crochet and you are guaranteed that there is uniqueness and love in each product you buy and support. And since what better way to show support and love than Raksha Bandhan, we thought why not ship that love with these Rakhis. Handcrafted and perfected by the same lovely ladies, these Rakhis come with a story that your siblings will not forget.

So, in the spirit of care and affection, check out this year's collection of Rakhis for that perfect gift of protection.
